## 1. Login and account settings

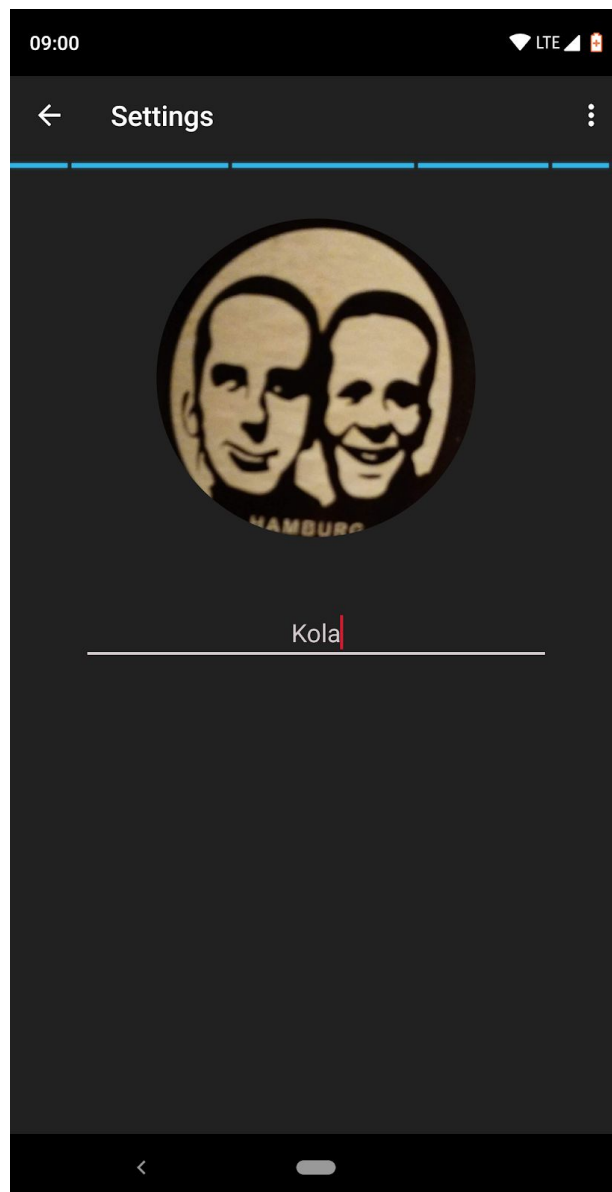

It is necessary to log in to access Magic content.

If you do not have an account, you can create one. Or reset your password, you will receive a link to reset it.

A screenshot of a mobile application's login screen. The background is dark grey. At the top, the status bar shows the time 09:00, LTE signal, and battery level. The title 'Login' is in the top left. In the center is an illustration of a blue top hat with a green tag and three cards (yellow, red, and red) with percentage symbols. Below the hat are two input fields labeled 'Email' and 'Password'. A black button with the text 'CONNECTION' is below the password field. At the bottom are two links: 'Reset your password' and 'Create an account'. The bottom of the screen shows a dark navigation bar with a back arrow and a home indicator.

When you first log in, you will be asked for a profile picture and a username. These data will be editable later.

Once these two fields are filled in, press the back button at the top left of your screen, near "Settings". The data will be saved for your next connections. Wait until the loading is completed.

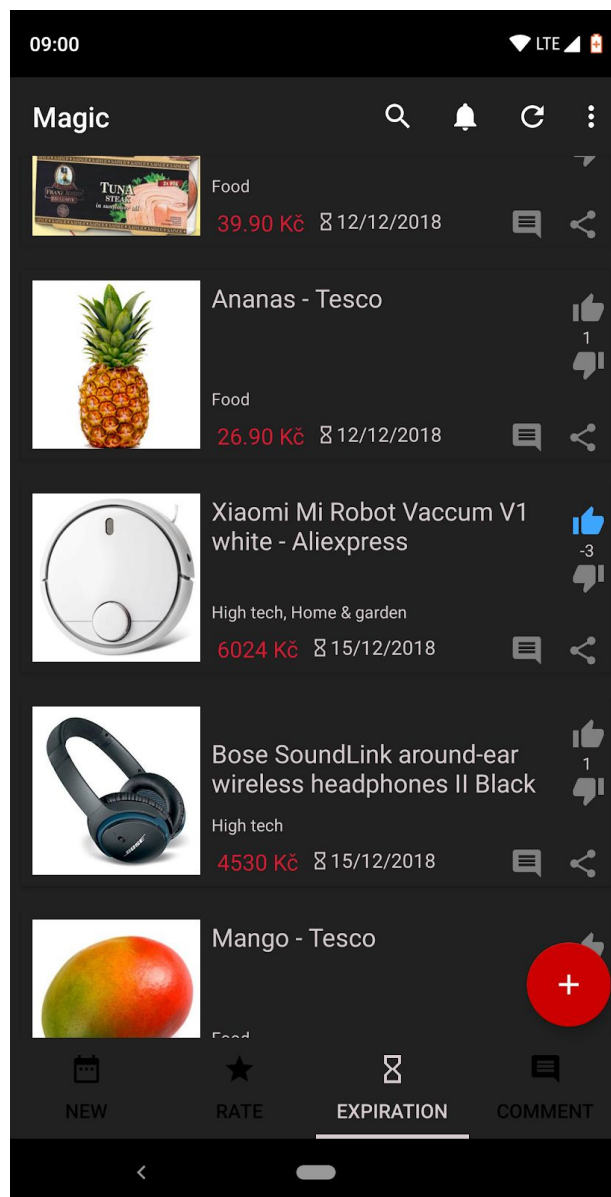

## 2. Navigation in the application

You can navigate between the different tabs to, for example, sort deals so you can see which ones are about to expire first.

You can also vote for a deal with the thumbs. The deal rating by the community is displayed between these two thumbs. Attention! A vote is unique, it cannot be modified, it is not a bug!

Use the menu at the top right (three points) to change your account information or log out.

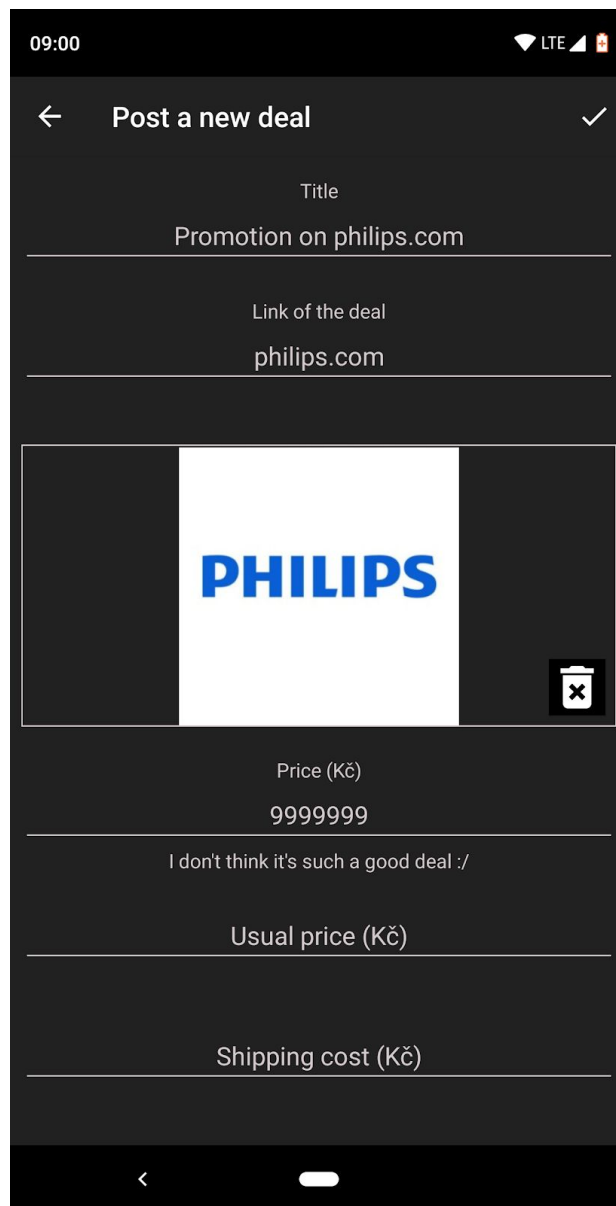

You can also create a new deal by clicking on the red "+" button.

### 3. Creating a deal

You can also create a new deal by clicking on the red "+" button in the main activity. Please fill in as many fields as possible when creating a deal. Some fields are mandatory such as description. You will not be able to publish your deal until some mandatory fields are completed.

Magicians (people who publish deals) will soon be rewarded for their efforts with virtual points and stickers visible on your profile. These points will be redeemable for cash.

The screenshot shows a mobile app interface for creating a new deal. The title bar at the top says "Post a new deal" with a back arrow on the left and a checkmark on the right. The form contains the following fields:

- Title:** Promotion on philips.com
- Link of the deal:** philips.com
- Image:** A placeholder image showing the Philips logo. A trash icon is visible in the bottom right corner of the image area.
- Price (Kč):** 9999999
- Description:** I don't think it's such a good deal :/
- Usual price (Kč):** (empty field)
- Shipping cost (Kč):** (empty field)

The bottom of the screen shows a navigation bar with a back arrow and a home indicator.
